

How will we share our information?
 What would happen if...?
 What conclusions can we make?
 What evidence supports our conclusions?

Communicate and Implement

Effective communication is important to the success of your project. Effective communication involves:

- Communicating with others to ask questions and find information
- Asking for help from experts
- Telling others about your project
- Getting support for your project

Communicating effectively involves identifying the people you know and what they can offer or help you with.

- Use a mind map to start identifying people you think can support your project.
- Describe what they can do in the second layer of the map.
- Identify other people who could contribute to your project.

What progress have you made? Summarize the actions you have taken so far in the flow chart below. What are the next steps?

What conclusions can you make from your action project? Use the chart below to analyze what you have accomplished and learned.

What is most important to know about our action project?	What have we learned that we did not know before? What conclusions can we make?	What evidence supports our conclusions?	What are some solutions that address the issue or challenge of our action project? What would happen if we implemented these solutions?
